(I)

(57) Abstract: A compound represented by  
the general formula (I) [wherein R<sup>1</sup> represents  
hydrogen or lower alkyl; R<sup>2</sup> represents lower alkyl,  
halo(lower alkyl), cycloalkyl, heterocycloalkyl,  
aryl, aralkyl, arylalkenyl, aryloxy(lower alkyl),  
heteroaryl, heteroaryl(lower alkyl), etc.; and  
R<sup>3</sup>, R<sup>4</sup>, R<sup>5</sup>, and R<sup>6</sup> each represents hydrogen,  
halogeno, cyano, lower alkyl, halo(lower alkyl),  
lower alkoxy, hydroxy, aryl, etc.; provided that at  
least one of R<sup>3</sup>, R<sup>4</sup>, R<sup>5</sup>, and R<sup>6</sup> is not hydrogen] or  
a prodrug or pharmacologically acceptable salt of  
the compound. The compound (I) has excellentantagonistic activity against an adenosine A<sub>2A</sub> receptor and is hence useful as a therapeutic or preventive agent for diseases related  
to an adenosine A<sub>2A</sub> receptor, especially motor dysfunctions, depression, anxiety disorders, cognition dysfunctions, cerebral  
ischemic disorders, restless legs syndromes, etc.

\* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

# INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2005/001168

## Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☒ Claims Nos.: 19  
because they relate to subject matter not required to be searched by this Authority, namely:  
The invention as set forth in claim 19 pertains to methods for treatment of the human body by therapy.
2. ☐ Claims Nos.:  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

### Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.
